Company overview

➤ About Us

CRD Plaster and works (P) LTD. has emerged as a perfect company and is counted among the leading manufacture, distributors and suppliers of Plaster of Paris (POP).

CRD Plaster has grown multifold till date and has its vision firmly set on the top position in the industry under the brand name "CRD".

We at CRD Plaster With enduring zeal and dexterity of our people working relentlessly are always there with a helping hand whenever customer need us. Blending quality, superior technology, Innovation and specialization has enabled us to become most reliable & preferred brand for Architects, Interior Decorators Builders and Contractors.

➤ Mission

To keep a consistent growth in connecting with the people of India and become a one stop solution for all their wall & Ceiling care product requirements.

➤ Vision

To become India's global face of the best wall care products in the entire nation and take the Indian market to the world stage with the trust of people in CRD.

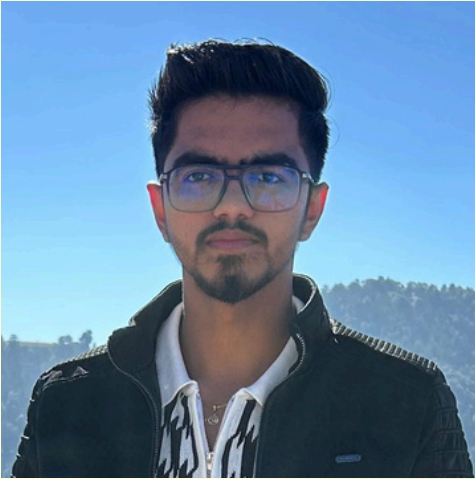

Director's Message

Deepak sharma
Managing Director
CRD Plaster And Works Pvt. Ltd.

Our religious scriptures have a famous saying of "Vasudhaiva Kutumbakam" which means "The whole world is one family", and that exactly is CRD vision here. When CRD treats the world as one family, it cares for it like its own. So, the products which CRD develops are not just the best but also sustainable. The vision helps CRD to hold its ground and still have no limits to its reach. CRD started back in 2004 and a lot has changed since then but the core fundamentals have never changed. We believe in customer satisfaction as we are here for the long haul. If a customer is satisfied with CRD products, then and only then they are going to come back to us. And that satisfied customer is the best investment one can do to advertise their products. That's why we focus strongly on understanding the needs of a customer because it might look that all the buildings you see are made from similar materials but it's not the truth. Be it a Builder, Architect, Interior Decorator, or Contractor, every client has their own vision of their creation and we respect that. Hence, we dedicate a whole team of experts to deal with a particular client. It helps us understand them better and build trust. One of the most important aspects of our working approach is to "Think Green". CRD doesn't work just for profit but for society as well. That is the reason we try to minimize the carbon footprint and chemical waste the industry creates. It starts with our choices of raw materials energy consumption low emissions and so on. We see to it that "Vasudhaiva Kutumbakam" is realized and protected.

Director's Message

Abhishek Sharma
Director

CRD Plaster And Works Pvt. Ltd.

CRD started with an idea of helping people create their ownworld. Our productsare not just easily available strong, and sustainable & it beautifies the overall structure. The products which CRD develops are not just the best but also sustainable and we focus more on thinking green when it comes a difference in society.

CRD One Coat 25 & 40 KG

Perfect One Coat Gypsum Plaster is a gypsum based plaster that is fast becoming the standard of high quality smooth internal finish. Its also improve workability and provide better coverage. It is a perfect one coat gypsum plaster for use on almost all backgrounds, e g. brickwork, block work or concrete. It provides a durable base for application of decorative finishes, requiring only the addition of clean water to prepare it for use.

Benefits

Easy to apply: Simple mixing of water to the product is required

Direct Application: One coat application directly on brick, block & concrete walls

Free of shrinkage cracks and better resistance to water.

Time saving. Results in substantial time saving as compared to conventional plastering methods

Available Sizes

25 KG & 40 KG

CRD Supreme Wall Putty

40, 20, 5, & 1KG

Supreme wall putty is a white polymer-based putty that provides a strong base on concrete, mortar walls, and ceiling. It is suitable for both interior and exterior walls. We use best Polymers and high-quality white cement, which gives a longer life span and strengthens the wall. Also, it is highly resistant to water, so it increases the life of the paint as well.

CRD PRIME – GI CHANNEL False Ceiling

Main

The Main Supporting Section for Plasterboard Installation

This section provides robust support for plasterboard installations, ensuring stability and durability in construction.

Dimensions:

- 25 mm x 50 mm x 25 mm x 2440 mm

Weight: Up to 30 Kg

Quantity in one Bundle: 20 Pcs

Cross

The Cross Supporting Section to Fix Plasterboard

This section provides essential support for fixing plasterboard, ensuring stability during installation.

Dimensions:

- 19 mm x 75 mm x 19 mm x 2440 mm

Weight: Up to 35 Kg

Quantity in one Bundle: 25 Pcs

L Angle

The Angle Supporting Section to Fix Plasterboard

This section is designed to provide essential support for fixing plasterboard, ensuring stability during installation.

Dimensions:

- 25 mm x 25 mm x 2440 mm

Weight: Up to 25 Kg

Quantity in one Bundle: 50 Pcs

CRD PRIME – GI CHANNEL GYPSUM BOARD CEILING

Ceiling Section

The Supporting Section for Plasterboard Installation

This section provides essential support for plasterboard installation, ensuring stability and strength.

Dimensions:

- 30 mm x 75 mm x 30 mm x 3660 mm

Weight: 34, 30 Kg

Designed for durability, it ensures reliable performance under various conditions.

Quantity in one Bundle: 25 Pcs

Perimeter Channel

The Main Supporting Section to Fix Plasterboard

It is framing element used to support the edges of wall.

Dimensions:

- 20 mm x 25 mm x 20 mm x 3660 mm

Weight: 16, 13 Kg

Designed for reliability, it ensures long-lasting performance during plasterboard installation.

Quantity in one Bundle: 20 Pcs

Intermediate Channel

The Primary Section to Support the Ceiling Section

This section provides essential support for the ceiling installation, ensuring stability and durability.

Dimensions:

- 15 mm x 45 mm x 15 mm x 3660 mm

Weight: 24 Kg

Designed for reliability, it provides long-lasting performance in ceiling applications.

Quantity in one Bundle: 20 Pcs

CRD PRIME – GI CHANNEL PARTITION

Floor

The Section Fixed to Floor and Ceiling for Securing CRD PRIME Wall Studs

This section is designed to be fixed to the floor and ceiling for securing CRD PRIME wall studs, ensuring stability and strength.

Dimensions:

- 25 mm x 55 mm x 25 mm x 3660 mm

Weight: 27 Kg

Designed for durability, it ensures reliable performance in securing wall studs.

Stud

The Vertical Support Section for Wall Framing

This section is used as the vertical support in wall framing, ensuring stability and strength.

Dimensions:

- 38 mm x 50 mm x 38 mm x 3660 mm

Weight: 34, 30 Kg

Designed for reliability, it provides long-lasting support in wall framing applications.

CRD PRIME – WIRE MESH False Ceiling

Description

CRD Wire Mesh is a suitable solution to give a better hold to the gypsum Plaster while making a False ceiling. It is certainly helpful to strengthen the plaster

Features

- High Strength
- Less P.O.P Consumption
- Without Cardboard
- All G.I. prime Material used
- Standard Weight
- Defect Free
- Durable
- Easy Installation
- Superior Quality

Material –

Galvanised Steel Coating

Types of P.O.P Wire Mesh

1. Punjab Wiremesh

100' FEET

50' FEET

Weight Options: upto 15 Kg
Length Options: 50ft, 100ft
Thickness: 60 mm
Gauge: 23

Designed for durability, it ensures long-lasting performance under varying conditions.

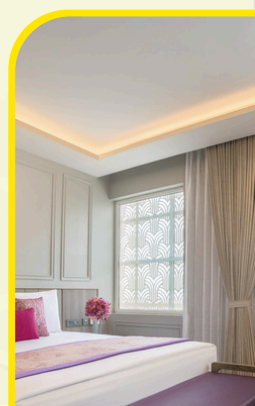

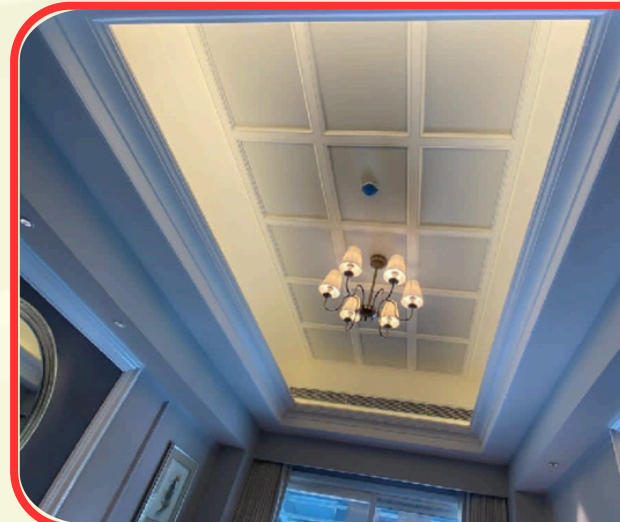

2. Delhi Wiremesh

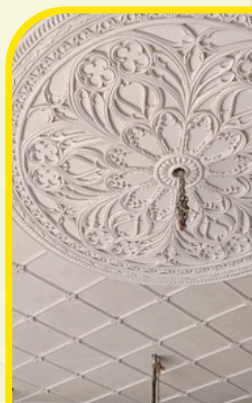

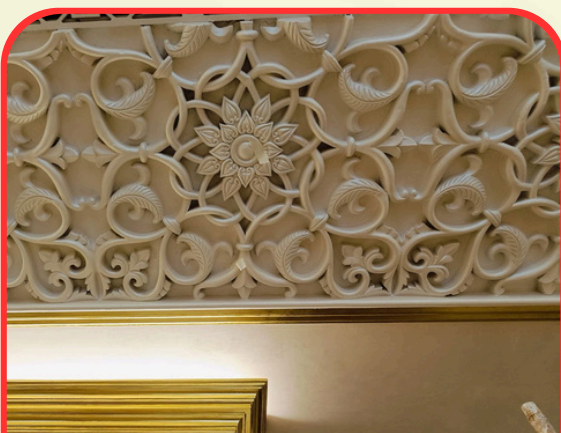

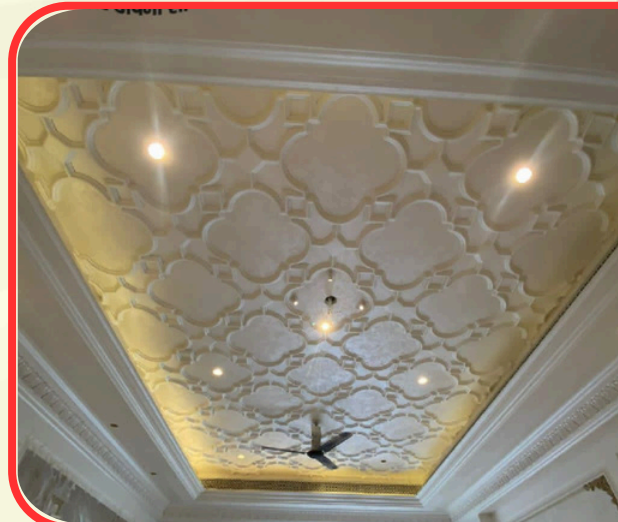

Weight Options: upto 15 Kg
Length Options: 45ft, 75ft, 90ft
Thickness: 54 mm
Gauge: 24

Designed for durability, it ensures long-lasting performance under varying conditions.
